## *Principal's Desk*

**Namaste Everyone!**

**We are really happy with the interest students are developing towards VIKSHAN as it really shows that our vision has come true. The purpose of this Newsletter was to provide a platform to students and they all are really using this opportunity to the utmost possibility.**

**Additionally, I am very happy with the response of the students towards class-wise assembly, where students are coming up with very innovative performances and showcasing good speaking skills.**

**This month we celebrated many wonderful events where students got the chance to learn and grow. With Lohri, Makar Sankranti and Pongal Celebration, students enjoyed the festivities. With Ramji's Pran Pratishtha Celebration, students were culturally enhanced.**

**And with our Republic Day celebration that focused on the theme of women's achievements, students were inspired to do great in their life.**

**The core of our effort lies in the holistic development of our students and the month of January really brought this effort to its fulfillment.**

**I hope that in the future, each and every student participates actively and we get a chance to admire their uniqueness.**

## *The Innovations*

Art Integrated Learning (AIL) is a teaching-learning model which is based on learning ‘through the arts’ and ‘with the arts’: it is a process where art becomes the medium of teaching-learning, a key to understanding concepts within any subject of the curriculum.

Learners explore creatively while building connections between different concepts through various art forms. Art experiences, both in visual (drawing and painting, clay modelling, pottery, paper crafts, mask and puppet making, heritage crafts etc.) and performing arts (music, dance, theatre, puppetry etc.) lead to a better understanding and construction of knowledge about different concepts. Arts have the flexibility to accommodate age-appropriate opportunities for learners who can explore at their individual pace. This resonates with the experiential learning approach.

In Vidya Vikash Concept School we organised this project work among the students as per CBSE guidelines from class 1st to 12th. For our school the state partners assignment was Chhatisgarh and Kerala. It was an effervescent experience for all our learners to understand the importance of art in learning.

The best part of the students participated in this for making this project and demonstrated their luminous talent. To make this task simple and compound our intelligent teachers supported the students in an inclination.

The inauguration of the Ram Temple in Ayodhya to be held on January 22 proclaims the progressive message of a commitment to faith. To mark this cultural and spiritual process, here is a students experience of this propitious day:-

Namaste Everyone! I'm Debapriya Mohapatra. On 20 January 2024, we organized a special assembly for Ram Mandir Pran Prathistha. That day, the school was decorated totally in Saffron color it was looking so resplendent. Before the assembly started, Honorable Principal Sir and other teachers lit the lamp in front of Lord Ram. Then, in the assembly, we organized a special song and dance that showcased Ram's life from childhood to adulthood, Also, small students dressed up like Lord Ram, Lakshman, Sita and Hanuman. They were looking so gorgeous in those costumes like some real God. It was really a mesmerizing program. Watching these all programs, I felt so happy and proud to be a part of Ramji's Pran Prathistha's, which finally happened after 500 years.

## 26th January, 2024- Republic Day Celebration "EMBRACING THE RICHNESS OF OUR DIVERSE CULTURE"

With this year's Republic Day Celebration, we wished that the spirit of our constitution always guides us towards justice, liberty, equality, and fraternity." Here is an account of the day by our Grade VIII- Snehika Swain:-

When I first entered the school, I was unsure about enjoying much but soon my thoughts changed and I found myself talking and enjoying with my friends and teachers. We had Ms. Yashi Jain , the successful and brave mountaineer of our state as the chief guest. She told us about herself and we were amazed by her achievements. After hearing her speech, I kept wondering that whatever I'm hearing and watching is it real? As I've only read about those things in books and watched related videos but watching it all live was a totally different experience. I was surprised to know that the person who trained her for mountain climbing was our sports teacher, Mr. Amardeep Singh! I got really inspired from her. We also had House-Wise March Past by our young cadets. Participating in March Past was a really good experience where we all synchronised ourselves and it felt amazing at the moment. My house won the 'Best House Award' for the March Past which made us all happy! The event was followed by patriotic song and dance performances by our friends. It was a day to remember!

### STUDY: THE CHAOS OF MIND

Study! Study! Study!  
Isn't it our buddy?  
Hearing this, our minds get fuzzy.  
And when we have to do it,  
We all get lazy!

Study! Study! Study!  
Doesn't it make us sleepy?  
Our parents and teachers scold us for that,  
And we all get really crazy!

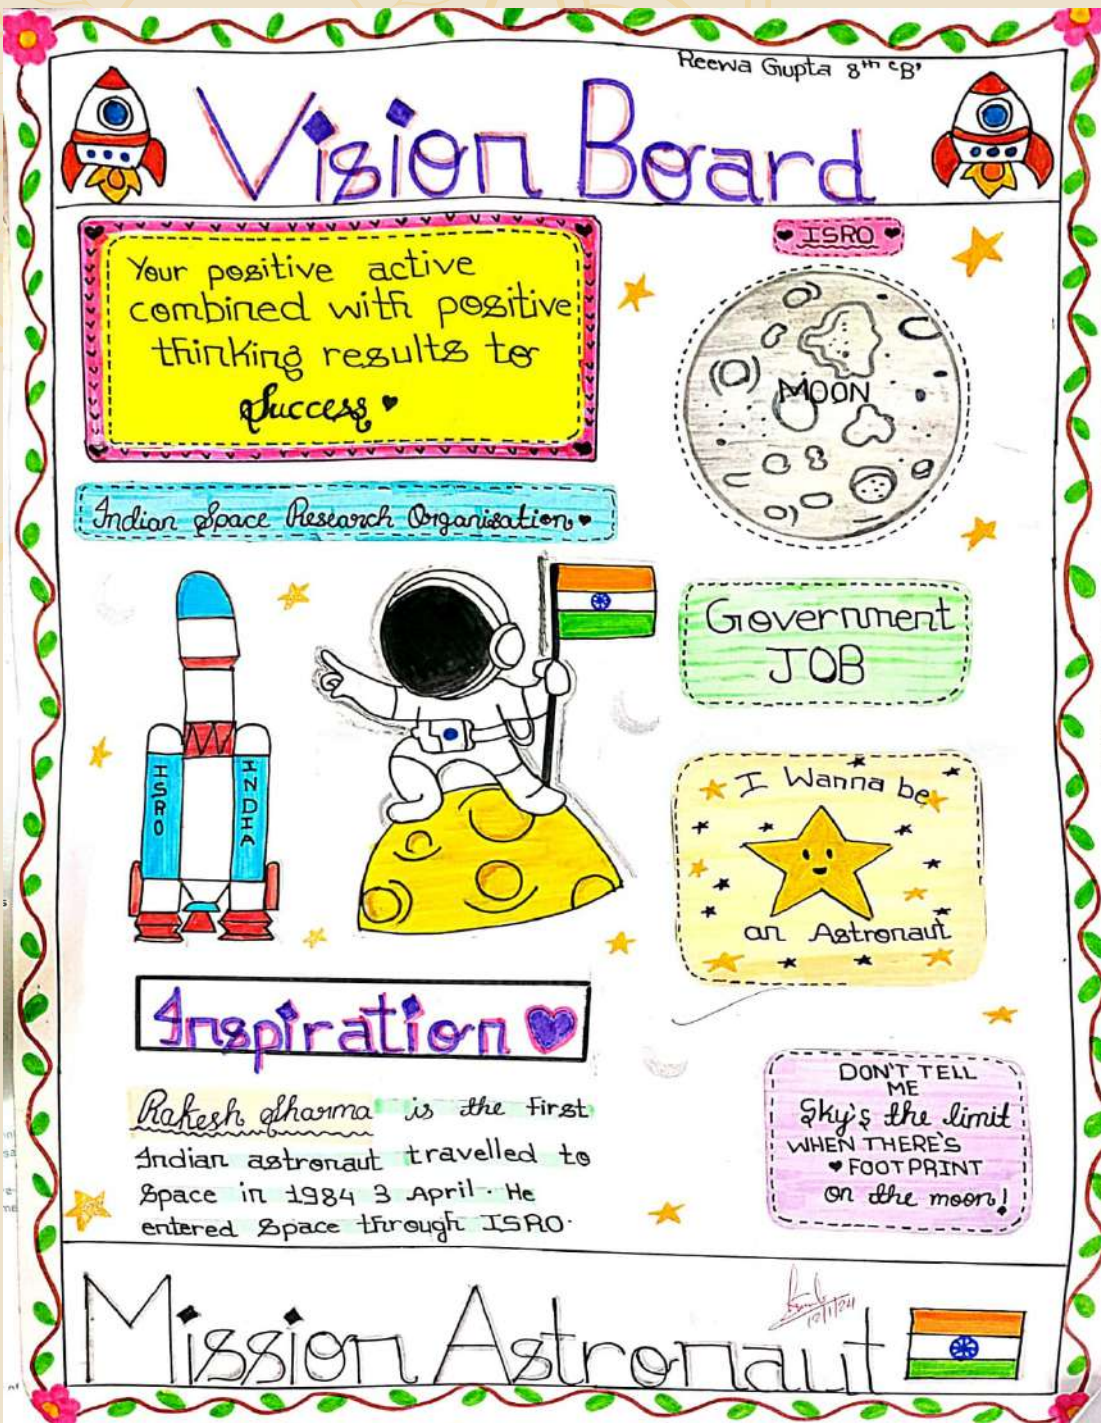

Study! Study! Study!  
What is the point of doing this?  
We ask this question daily.  
But ones our result is all out,  
We all get the answers really!

## VISION BOARD MADE BY STUDENTS

Namaste Everyone! I am sharing my experience regarding our holiday homework in which I had made a vision board. I had contributed a lot to make this vision board more attractive. In this, I present my vision about my future. I mentioned all the points related to my future for example whom I am inspired from and what I actually want to become. I had pasted the picture related to our future plans etc. and to show my real feelings I pasted some emojis also. Through this, students who did not have any plan for the future they also thought and made the project. Vision board shows us the written and decorated form of our goals and aims. The more passionately it is made, the more it encourages us. Vision board is not just any board or paper made for the goals we want to achieve but the imagination and power that our dreams hold to make us do it in reality. As a conclusion, this was the best project I had made.

# जीवन

इतना सुन्दर जीवन मिला है  
उसको जीना भी एक कला है  
फूल खिले, सूरज निकला है  
हर मौसम का अपना मज़ा है  
खुश रहें और खुशियां बांटें,  
ये क्या कठिन काम बड़ा है  
ईश्वर से हमको बहुत मिला है  
सूरज की रोशनी सबको दी है  
बारिश की बूंदें सबको दी है  
क्यों ये सुन्दरता देख न पाएं  
मन न जाने कहां पड़ा है  
मन को समेटें, अंतर मन में झांकें  
जीवन सुन्दर है ध्यान लगाएं  
सबसे बड़ी बस बात यही है  
बाकी सब क्षण में बिसराएं  
खुश रहे , खुशियां फैलाएं
